Professional Summary
Driven public health professional with 8+ years of experience in data management, M&E, and large-scale health project implementation, including NAIIS, ZAMPHIA, and BAIS V. Poised with a passion for excellence and a commitment to integrity, professionalism, teamwork, and effective communication. Skilled in project management, real-time data monitoring, CAPI training, and HIV prevention programming. Seeking a challenging and rewarding role within a forward-thinking organization where I can contribute meaningfully to growth while continuously advancing my skills and delivering impactful results.

EXPERIENCE

APIN Public Health Initiatives / Public Health Information Surveillance Solutions and Systems (PHIS3) Abuja, Nigeria
Funded by the U.S. Centers for Disease Control and Prevention (CDC)
November 2024 – Present
Biostatistician & Data Management Consultant – ART Impact Survey (AIS)

- Lead statistical analysis and data management for the household-based ART Impact Survey in Akwa Ibom State, focused on assessing HIV prevalence and progress toward UNAIDS 95-95-95 targets.
- Oversee data cleaning, quality assurance, and real-time data reporting pipelines to support evidence-based health policy and programming.
- Collaborate with multidisciplinary teams, including field monitors, health informaticians, GIS experts, and epidemiologists from CDC and Harvard to refine indicators and improve survey methodology.
- Develop user-centered data visualizations, dashboards, and reports using CAPI/SIMS data platforms to support accessible and timely dissemination of findings.
- Contribute to manuscript drafting, policy briefs, and donor deliverables, translating complex datasets into actionable insights for stakeholders and public health officials.

July 2024 – October 2024
Real-Time Data Monitors (RTDMs) Coordinator – AIS Project

- Coordinated real-time field data monitoring activities across multiple states, ensuring high-quality, timely survey data submission and validation.
- Updated and aligned SOPs with project standards; led recruitment processes, training, and onboarding of RTDMs.
- Designed and implemented communication workflows, interview scoring tools, and monitoring templates to enhance team coordination and decision-making.

- Collaborated with GIS developers to refine interactive dashboards and map-based tools for state-level tracking and reporting (notably in Lagos and Rivers States).

INSTITUTE OF HUMAN VIROLOGY, NIGERIA. - IHV NIGERIA
NACA OR (DATA SUPERVISOR)

Evaluation Of Community Health Systems Strengthening Interventions in Cross River, Gombe, Kaduna, Jigawa, And Nasarawa States

- Serves as a Data Collector's Supervisor
- Oversees data collection activities in the field and data quality assurance processes.
- To support the Research evaluation manager in leading project design, protocol development, data analyses, and dissemination of results.
- Support the project secretary with the distribution of agendas, invitations, and other materials for meetings, record meeting minutes, and ensure their distribution after the meeting.
- Participate in inception meetings with NACA/Global Funds
- Participate in the broad stakeholders meeting in the states.
- Support the formative Research: by Protocol Development Meetings, training of field data collectors, and monitoring the data collection.
- Support the data analysis and Report writing.
- Participate in the dissemination meeting.

Close Out Transition Team

- Actively contributed to the successful closeout of UMB Nigeria operations in September 2023, ensuring proper documentation, handover of assets, data reconciliation, and compliance with donor and organizational requirements.
- Served on the **transition team that facilitated a seamless migration of ongoing projects, data systems, and personnel to the Institute of Human Virology Nigeria (IHVN)**, minimizing disruptions to programmatic implementation and partner relationships.
- Supported knowledge transfer and change management activities during the transition, including stakeholder engagement, internal communications, and orientation of incoming IHVN teams.
- Ensured adherence to donor (PEPFAR/CDC) closeout guidelines and institutional policies during the project wind-down phase.
- Maintained high standards of data integrity, confidentiality, and compliance throughout the organizational transition period.

10/2021 – 08/2023

REGIONAL PHIA QUALITY DATA OFFICER

University of Maryland Baltimore - Centre for International Health, Education and Biosecurity (***CIHEB***), Abuja (Nigeria)

- Support CIHEB country programs in Kenya, Botswana, Malawi, Mozambique in countries where UMB is implementing the Public Health Impact Assessment (PHIA), as well as continuing to contribute to our mission in Nigeria to take responsibility for managing master data set, developing reports, and troubleshooting data issues.
- A fine eye for detail, experience as a data analyst, and a deep understanding of popular data analysis

tools and databases

- Create reports for internal teams and/or external clients.
- Collaborate with team members to collect and analyse data.
- Use graphs, infographics, and other methods to visualize data.
- Establish KPIs to measure the effectiveness of business decisions.
- Structure large data sets to find usable information.
- Work with a team of analysts and other associates to process information
- Create presentations and reports based on recommendations and findings.
- Support technical expertise in data storage structures, data mining, and data cleansing.
- Travel to sites for technical support, mentoring, and supervision.
- Other duties as assigned by the team lead.
- Provide quality assurance of imported data, working with quality assurance analysts if necessary.
- Supporting the data warehouse in identifying and revising reporting requirements.

Sample Tracking and Result Return/Reporting System (STaRT/AMPLIFY) Malawi

The web-based application used by data monitors, the Ministry of Health of Malawi, and other stakeholders to monitor samples moving from health facilities to laboratories and results from laboratories to health facilities, to raise tickets for any delay of samples, to generate weekly, bi-weekly, and monthly data reports and to view visualized data.

- Weekly monitoring and tracking of samples in diagnostic cascade at district hubs and molecular labs using STaRT.
- Continuous remote support staff at the hub where the STaRT wallboard is deployed with routine data review and information use.
- Supervising the data monitors to track and monitor the delivery of the results at the district level using STaRT on a weekly/bi-weekly basis.
- Test the Gap assessment tool on Redcap and review it with the developer.
- Remote support to the data monitors on conducting DQA for molecular Labs and hub sites.
- Review of tools/templates/and reporting formats of the data monitors
- Monthly Reporting of findings from the tracking of the samples at the site level and LIMS entry at the various hubs

COVID-19 Screening application for statistics Botswana.

COVID-19 created unforeseen challenges to the population-based HIV impact assessments PHIA projects that threatened the health of survey staff and participants and required daily symptom monitoring. In response, CIHEB developed the UMB PHIA Companion Tool, a COVID-19 symptom screening app to support COVID-19 risk mitigation compliance for staff to use daily before training and field activities.

- Support development of Android and web application
- Test the Android app and give feedback to the software development team.
- Develop user guide for mobile statistics Botswana COVID-19 screening app.
- Support training for both web and mobile application
- Documentation of feedback and any issues escalated.

Ethics & Regulatory Assistant

- Provide technical support and assistance to the Ethics and Regulatory function to enable the Technical Lead to provide oversight on ethical and regulatory aspects of the CIHEB Nigeria Program
- Ensuring all technical staff and field staff are trained in Ethics and Human Subjects Protection and have valid certificates accordingly (CITI for the University of Maryland, Baltimore staff and partners, ethics training for field staff)
- Assisting with the research data archive as directed, ensuring that documents are archived accordingly including indexing and disposing of records when appropriate.
- Support the lead in maintaining the electronic and physical Survey Management Files and ensure that they are updated, secured, and organized.
- Updates and harmonization of protocols across the Nigeria projects
- Follow up with all responsible persons to ensure timely submission of protocols to local IRB and other relevant IRBs and timely submission of Incident reports.
- Ensuring the local Principal Investigator signs off relevant documents.
- Undertake administrative activities as and when required that include but are not limited to the following: Scanning and archiving records as required, general clerical duties such as photocopying, filing, binding, laminating documents, and preparing payments for accounts to process and drafting notes to files, a needed.
- Final report and release of public-use datasets & packages

ASPIRE
THE ACTION TO SUSTAIN PRECISION AND INTEGRATED HIV RESPONSE TOWARD EPIDEMIC CONTROL

THE PROJECT THAT WE IMPLEMENT IS FUNDED BY THE US PRESIDENT'S EMERGENCY PLAN FOR AIDS RELIEF (PEPFAR) THROUGH THE US CENTERS FOR DISEASE PREVENTION AND CONTROL (CDC).
THE PROJECT IS CURRENTLY FOCUSED IN FOUR STATES, NASARAWA STATE, RIVERS STATE, KASTINA STATE, AND THE FEDERAL CAPITAL TERRITORY.

- Support all activities to ensure enhanced patient management, and implement quality improvement approaches at patient, facility, and community levels to track and optimize health outcomes.
- Support advocacy and stakeholder engagement efforts
- Participate in concept development and ideation meetings.
- Participate in HI collaborative meetings.
- Participate in development boot camps.
- Support the development of applications and other related HI-specific tasks assigned by IHVN.
- Support the user acceptance testing, pilot testing, and roll-out of newly developed applications by the UMB team.
- Support the provision of feedback or technical support to enhance and improve the functionality of a deployed application.
- Support IHVN in the development of data monitoring and analytical systems including advanced analytics like machine learning. Build queries, flags, analytics, charts, trends, and other relevant data monitoring systems on the EMR and CDR dashboards.

- To conduct/ Support CQI Knowledge gap assessment at facility level
- To facilitate/Support training where required
- To facilitate/ Support the conduct of performance measurement by facilities using facility-level data to determine quality gaps.
- To facilitate/Support the development of facility based CQI plans/projects.
- Learning networks to share outputs from CQI initiatives, lessons learned, and best practices: Support IHVN in the quarterly QI collaborative.
- Work with GON for timely electronic reporting of HIV program data and joint planning to improve program performance.
- Conduct evaluations and surveillance to improve program performance.

02/2020 - PRESENT

MONITORING AND EVALUATION/SURVEILLANCE OFFICER

University of Maryland Baltimore - Centre for International Health, Education and Biosecurity (***CIHEB***), Abuja (Nigeria)

Key Population Size Estimation (KP-SE)

The main goal of this study is to obtain serological and behavioral information on the key population including Female sex workers (FSW) both brothel and non-brothel based FSW, Men who have sex with men (MSM), Trans-genders (TG), and People who inject drugs (PWID) to improve HIV prevention and care programs at state and national level.

- Support the development of protocol, SOPs, training slides, and Job aids.
- Support training of the national team (Government of Nigeria NACA/NASCP, KAP, CDC Nigeria, CDC US, Heartland Alliance, PoP Council, and UMB
- Master Trainer of the Hotspot mapping & validation and Capture-Recapture (Venue and Non-Venue based capture)
- Real-time data monitoring to resolve entry errors, data collection processes, and data quality issues.
- Participate in field monitoring visits to improve the quality of data with the state supervisor and stakeholders.
- Support and monitor uploads of data to the server, and check data discrepancies and incompleteness.
- Review data coming from the field and flag any data issues which will be followed up by the state supervisor. Review Indicators/ Variables like Hotspot IDs (Duplicates, consistencies), Time spent in a hotspot, Pace of work, no of items distributed.
- The dashboard will be monitored to review the completeness/accuracy of data coming from the field and the quality of data per enumerator.
- Daily preview to monitor progress and patterns of data collection from participating states, and hotspot enumerators.
- Support weekly/ bi-weekly data review meetings to discuss data issues.
- Monitoring data collection activities daily
- Support data cleaning process which includes cleaning duplicate identities and ensuring that all biological data has corresponding behavioral data.
- Support data analysis, report writing, and final report dissemination.

Cohort Event Monitoring (CEM)

Safety Signal Detection Post-Vaccination with COVID-19 Vaccines in Nigeria

This observational surveillance activity aims to monitor and evaluate the safety of COVID-19 vaccines in enrolled individuals who have received the authorized COVID-19 vaccines in Nigeria. The purpose is to ensure safety signal detection as soon as the vaccine is introduced.

- Support the preparatory activities and sub-activities of the implementation plan.
- Preparation of Manuals, SOPs, and Job Aids
- Procurement of items
- Data Capture programming
- Facility staff recruitment and training
- Data Management set up (Dashboard, field check tables, and data management system)
- Site Level training
- Pilot Survey
- Site-level data collection
- Follow up site-level data collection.
- Data analysis and documentation
- Communication and clearance
- Final report and release of public-use datasets & packages

Capacity Building Workshop for GON on NAIIS Public-use Data and Manuscript Writing

Goal

To capacitate participants to use NAIIS public access data to answer programmatic questions and generate scientific manuscripts for publication.

Objectives

- To give participants an understanding of the NAIIS survey processes, data collection tools, and available datasets
- To build the capacity of participants to use the NAIIS NADA portal to make requests for data for further analysis.
- To refresh participant knowledge on the use of basic STATA commands
- To build participant capacity to develop and publish scientific manuscripts.
- To develop draft concept notes on proposed NAIIS manuscripts
- Presentation of Group draft Manuscripts

COVID-19 Household Seroprevalence Survey

- Support the central team in planning and coordination of all survey-related activities.
- Facilitated stakeholder engagement meetings and shared important action points with the technical team.
- Development of SOPs, Manuals, training slides, and Job Aids
- Development of budget, and work plan and ensure program implementation.
- Ensured timely submission of SOPs and prompt upload of clean documents for survey.
- Ensured that all survey deliverables met the survey quality and costs.
- Supported Survey Protocol review and approval by NHREC, NCDC, UMB IRB, and CDC IRB
- Procurement of survey items, distribution, and tracking of a commodity in the survey states
- Questionnaire development and review
- Supported the regulatory, ethics, informed consent & confidentiality agreement, and monitoring CITI certificate.
- Data capture programming testing and updates
- Longlisting and Shortlisting of Field and central Lab workers for interview/assessment
- Selection of eligible staff and compilation of results
- Master Training of Trainers (TOT) and Facilitator

- Facilitated state-level training of field teams, mappers & listers, drivers, and community mobilizers.
- Monitoring of mapping and listing data collection by the National Population Council NPoPc
- Field practice/ Pilot survey
- Post-pilot and pre-data collection planning meetings and refresher training on key areas
- Main survey field data collection for cross-sectional and longitudinal follow-up.
- Served as a state monitor and supervisor to ensure proper collection of consent forms and survey protocol.
- Preparation of timesheets and payment schedules promptly
- Training venue readiness and materials like PPEs available for Enugu, Gombe, and Necessary
- Attended all technical meetings with stakeholders.
- Ensure prompt day-to-day running for Enugu state by working with the state leads and field teams.
- Provided technical support, IT, Admin, logistics, and commodity management.
- Provide and ensure the daily quality of data, completeness, and troubleshooting in Enugu State
- Real data monitoring of field information on the serosurvey.umbphia.org dashboard
- Data analysis and documentation
- Support Final report and release of public datasets & packages.
- Data archiving

03/2020 - PRESENT
Botswana University of Maryland School of Medicine Health Initiative (BUMMHI), Gaborone (Botswana)
Fifth Botswana AIDS Impact Survey (BAIS V)

- Developed a facilitator Guide to CAPI data collection for the PHIA Surveys BAISV
- Continuous remote assistance to data management
- Supported the field implementation Director in compiling a comprehensive field team list in an approved template for tablet serialization.
- Supervised efficient distribution of survey tablets, and availability of tablet accessories.
- Created a checklist that ensured all survey tablets were prepared, ready, and distributed.
- Developed and maintained systems for data collection, maintenance, and storage.
- Developed templates and schedules for written routine reports.
- Coordinated training for the data monitors and secondary data editors on the data system which comprises several components. Wallboards and AIMs system for data monitoring, process monitoring, and help desk services.
- Technical support to the data monitors and secondary data editors leads on dashboard and reporting.
- Lead the generation of daily reports, reviewing, and cleaning of data on the dashboard.
- Supervised the monitoring and reporting of protocol violations during field practice.
- Development of monitoring indicators
- Ensured execution of all queries
- Development Data monitoring SOP, AIMs job Aids, reviews, and updates

02/2019 - PRESENT
University of Maryland Baltimore - Centre for International Health, Education and Biosecurity (CIHEB), Lusaka (Zambia)
Zambia Population-based HIV Impact Assessment (ZAMPHIA) Survey

- Master Trainer for data monitors and secondary data editors
- Ensured 100% achievement of the data monitoring target.
- Supervised 10 staff engaged in quality data monitoring.
- Technical support to the data monitors and secondary data editors

- Coordinated training for the data monitors and secondary data editors on the data system which comprises several components. Wallboards and AIMs system for data monitoring, process monitoring, and help desk services.
- Coordinated Follow-up with the developer on pending issues on AIMs.
- Organized refresher training on CSpro (CAPI): Review of case tree for navigations, Review sharing of individual assignments, Review of EA status reports, Review of the withdrawal process, challenges with tablet wiping, and consent issues.
- Communication with the field team via the use of a database (AIMs and Elastix) on completeness.
- Provided central command and control for the data & process on the field.
- Data cleaning and mastering the data in preparation for analysis & report writing.
- Provided technical oversight and guidance to the developer (Softekenterprises and Team) on AIMs
- Analysis of inconsistencies and errors that are not detectable and/or corrected at the data entry level.
- Coordinate meetings with project and other partner staff CDC, ICF, Softekenterprises
- Daily presentation of the summary report during the pilot survey and on request
- Developed and maintained a system for routine report/documentation (Microsoft Teams). Daily Individual shift report (ISR), Ticketing/Incident Report, and Action plan based on ISR report.
- Escalations process on issues & challenges related to mapping & listing, Community Mobilization, Admin, Ethics, Central and satellite Lab, Logistics, and linkage to care.

STRENGTHENING EPIDERMIS RESPONSE SYSTEMS (SERS)
Covid-19 Response -POI Follow-Up and Connect Centre Activities

- Supervised and managed the day-to-day activities of the agents.
- Development of a dashboard at the Connect Centre for the visualization of call details.
- Development of report template (Daily tracking, POI call center report, and Summary report)
- Conducted training on the use of ODK collect app on mobile phones for the POIs agent.
- Conduct training on general IPC for COVID-19 for CC agents
- Facilitated training for NCDC UMB agents on COVID-19 Person of interest follow-up.
- Facilitated training for NCDC UMB Connect center volunteers on general call etiquette and transferring calls using eyebeam software.
- Share daily Reports for NCDC Connect Centre (UMB HUB) for both Morning Afternoon and night shifts with the surveillance team and relevant stakeholders.
- Refresher training for the POIs follow-up and monitoring Sugar CRM, using Elastix and Eyebeam to make outbound and inbound calls.
- Immediate escalation of queries/ POIs exhibiting COVID-19 symptoms and any other related challenges with the surveillance Team, active Emergency Operation Centre, and technical working group
- Facilitated efforts to ensure the functionality of the Connect Centre operation facilities such as subscriptions for toll-free lines and the connecting lines from the call gateway.
- Support training to build the capacity of 2nd Responder on the NCDC dashboard for self-reporting/ Assessment.
- Trained in the use of different channels (mobile App, web App, SMS, USSD, and IVR Call-back Technology) for self-assessment that will be deployed for public use.

NATIONAL DATA REPOSITORY (NDR)

- Continuous support in managing the NDR platform for the U.S. President's Emergency Plan for AIDS Relief (PEPFAR)-Nigeria's HIV/AIDS routine data quality assessment.
- Conducted NDR-level data quality review (DQR) with emphasis on completeness, consistency, timeliness, validity, and error analysis based on data uploaded on the NDR platform by supported partners.
- Provided stewardship in Data Quality Assessment (DQA) and Data Quality Improvement (DQI) planning and implementation across sites supported by all PEPFAR-supported partners.
- Supported daily partner upload on the NDR.
- Provided technical support to all Centers for Disease Control (CDC) and United States Agency for International Development (USAID) implementing partners.

12/2018 – 02/2020

MONITORING AND EVALUATION OFFICER

University of Maryland Baltimore - Centre for International Health, Education and Biosecurity (***CIHEB***), Abuja (Nigeria)

NIGERIA HIV /AIDS INDICATOR AND IMPACT SURVEY (NAIIS)

The 2018 Nigeria HIV/Aids Indicator and Impact Survey (Naiis) Is A Cross-Sectional Survey That Will Assess the Prevalence of Key Human Immunodeficiency Virus (HIV)-Related Health Indicators. This Survey Is a Two-Stage Cluster Survey Of 88,775 Randomly Selected Households in Nigeria, Sampled from Among 3,551 Nationally Representative Sample Clusters. The 2018 NAIIS will also estimate the prevalence of hepatitis B virus (HBV), hepatitis C virus (HCV) infections, and HBV/HIV and HCV/HIV co-infections.

- Data Analysis Using Sas and Excel
- Generated Sas Codes Used for Analysis
- Worked On Codebook and Data Dictionary
- Produced Tables and Graphs for Analytical Variables (HIV Prevalence and Viral Load Suppression).
- Regularly, Monitored and Evaluated Information and Data Systems
- Developed And Updated Project Tabulation Plan as Required.
- Standardization Of Variable Definitions and Compiling Naiis Data User Manual

03/2018 – 12/2018

DATA ASSOCIATE

University of Maryland Baltimore - Centre for International Health, Education and Biosecurity (***CIHEB***), Abuja (Nigeria)

NIGERIA HIV /AIDS INDICATOR AND IMPACT SURVEY (NAIIS)

- Monitored Real-Time Data Processes
- Cleaned And Validated Data from Field Teams on A Zonal Level
- Provided Timely Solutions to Challenges Raised in The Field
- Secondary Editing of All Data Uploaded from The Field Using Cspro
- Real-Time Data Monitoring During the Nigeria Aids Indicator and Impact Survey (NAIIS)
- Testing And Translating on Computer Assisted Personal Interviewing (CAPI)
- Master Facilitator for CAPI at Nigeria Aids Indicator and Impact Survey (NAIIS) Central Level Training

12/2017 – 03/2018

CLINICAL DATA ABSTRACTOR

University of Maryland Baltimore – Maryland Global Initiative Corporation (MGIC), Abuja (Nigeria)
STRENGTHENING HIV FIELD EPIDEMIOLOGY, INFECTIOUS DISEASES SURVEILLANCE, AND LAB DIAGNOSTICS (SHIELD)

- Collected Quantitative Data Through Telephone, In-Person, and Online Surveys 3
- Collected Qualitative Data Through Key Informant Interviews and Focus Group Discussions.
- Entered Abstracted Records into Hard/Electronic Copy Data Capture Instruments.
- Crosschecked The Data Entered for Each Patient and Screened for Errors in Consistency
- Filtered Out Duplicate Records So That the Most Relevant Information Is Available for Documentation and Further Analysis

02/2017 – 11/2017

PUBLIC HEALTH INTERN

University of Maryland Baltimore – Maryland Global Initiative Corporation (MGIC), Abuja (Nigeria)

- Abstracted data from health facilities and uploaded them into the database.
- Analyzed and reported events of the top trending diseases with the use of TA-TA-FO (Bio-surveillance information system) and moderated searches (SERS)
- Data quality assessor (DQA) for monitoring, evaluation & reporting for effective framework PEPFAR key outcomes
- Prepared and made Presentations weekly at national surveillance and outbreak review meeting (NASORM NCDC) on top trending diseases for the past 7 days.
- Assessed and evaluated programs, performed research on relevant topics, and revised presentation materials as appropriate.
- Worked on the CDC-funded HIV(SHIELD) project as a Data abstractor.
- Participated in the development of promotional goals and strategies, as appropriate

EDUCATION

2009 - 2015

BACHELOR OF SCIENCE MEDICAL HUMAN ANATOMY

UNIVERSITY OF MAIDUGURI, BORNO STATE (NIGERIA)

2002 - 2008

WEST AFRICAN SENIOR SCHOOL CERTIFICATE EXAMINATION (WASSCE)

Federal Staff Nursery and Primary School, Ilorin (Nigeria)

1996 - 2002

WEST AFRICAN SENIOR SCHOOL CERTIFICATE EXAMINATION (WASSCE)

Federal Staff Nursery and Primary School, Ilorin (Nigeria)

SKILLS

Organizational/managerial skills

- Ability to analyse intricate situations with a keenness for solutions.
- High imputative ability for good leadership and supervision
- Willingness to learn and committed to excellence and teamwork
- Good interpersonal and communication skills
- Excellent analytical and problem-solving skills
- Creative, strategic, detailed, computer literate, and intelligent mind
- Highly organized with a creative flair for project work
- Enthusiastic self-starter who contributes well to the team
- Team leader and ability to ensure projects run on schedule and budget

Communication skills

- Excellent oral and written correspondence
- Able to explain technical information and data to non-technical colleagues

Job-related skills

- Project implementation and execution skills

Digital skills

SELF-ASSESSMENT

Information processing	Communication	Content creation	Safety	Problem-solving
Proficient user	Proficient user	Proficient user	Proficient user	Proficient user

Digital skills - Self-assessment grid

Data analytics and relevant digital skills

- Diagramming and graphics application (Microsoft Visio)
- statistical software package (SAS, STATA)
- Statistical computing language (R)
- Databases (SQL)
- Data Analysis with SAS
- Data visualization with Power-Bi, Excel

ADDITIONAL INFORMATION

Other skills

- High level of mathematical ability
- Accuracy and diligence
- Methodical and logical approach.
- Ability to analyse, model, and interpret data.
- Excellent research skills
- Capacity Building and system monitoring
- Program Evaluation and initiative
- International and Community Development
- Proposal and Report Writing
